

Welcome to Reno's planner.

In less than 2 minutes, start your design process and get a starting estimate for your project.

- 1 CUSTOMIZE YOUR PROJECT
- 2 CHAT WITH A PLANNER
- 3 RECEIVE A PERSONALIZED PROPOSAL

Get started

Hi there, let's start with the basics. Where are you renovating?

With Reno, gain access to local renovation expertise. Reserve today for our chance to get accepted.

Postal Code

Continue

What kind of home are you renovating?

This helps us estimate details about your building construction, such as if the walls are made of plaster & lath.

Building Type

Building Age

Continue

What renovation would you like to start with?

We offer both bathroom, kitchen, backyard and basement renovations. More can be added later to your project.

Choose a style to start customizing.

This acts as a base for your palette. You can still access our entire design system at any point.

Two-Tone Traditional

White and gray cabinets. Bronze hardware. Charming octagon dot flooring.

Select

Blue Contemporary

Navy, black, and white palette. Friendly 4x4 subway tile.

Select

Warm Traditional

Traditional cabinet door style. Bronze hardware. 2x8 tile backsplash.

Select

A simple and streamlined process

Use our tools to plan, design, and build your renovation with the industry's top designers and contractors.

How does it work?

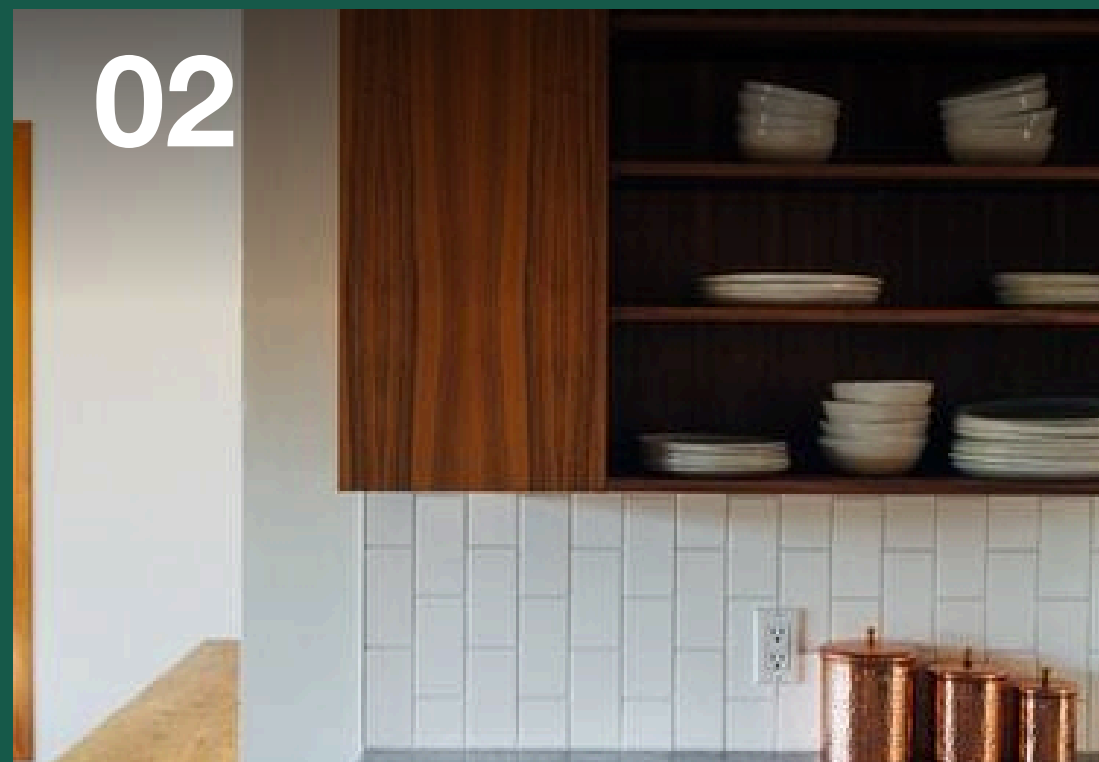

01

Plan

Work with a Block Project Planner to receive a custom proposal tailored to your renovation goals with a detailed scope of work.

02

Design

Use our curated design system and access our in-house designers to bring your space to life. We'll order the materials and prepare your renovation for the day of break ground.

03

Build

We've built relationships with the best, local contractors in your area. They're 100% licensed and insured—and they'll provide milestone updates throughout the build.

Can you explain how plumbing works?

Proper setup of pipes, drains, valves, and devices is key for water systems to work well.

What decides the best paint type for a project?

Emulsion paint gives a tough finish, great for washable walls in India.

Important factors to think about when designing a bedroom.

- Upgrade your space with new wardrobe doors, a big rug, and smart furniture layout.

- Know your room's layout to make better design choices.
- Think about key furniture for a practical living area.

Get inspired for your backyard landscaping project with creative ideas to transform your outdoor area.

- Refresh your backyard with custom landscaping ideas for various sizes, terrains, and uses.
